

# E Bikes & E Scooters

**E Scooters are illegal in Lancashire, you can only ride them on private land that has NO public access (places such as parks or car parks are not allowed)**

**Both are powered by Lithium-Ion batteries which can cause rapidly developing fires if the battery is damaged (you cant always see this)**

**Always use a manufacturer approved charger and unplug as soon as its fully charged**

**E Bikes can only be ridden by people aged 14 and upwards and have to be restricted to 15.5mph**

**Never store or charge batteries near an escape route**

**Never leave batteries charging at night when you go to bed or leave the house**
