

STATEMENT ON ANNUAL GOVERNANCE ARRANGEMENTS BY THE CHAIRMAN OF THE COMBINED FIRE AUTHORITY, THE TREASURER TO THE COMBINED FIRE AUTHORITY AND THE CHIEF FIRE OFFICER

Scope of Responsibility

Lancashire Combined Fire Authority (the Authority) is responsible for ensuring that its business is conducted in accordance with the law and proper standards, and that public money is safeguarded and properly accounted for, and used economically, efficiently and effectively. The Authority also has a duty under the Local Government Act 1999 to make arrangements to secure continuous improvement in the way in which its functions are exercised, having regard to a combination of economy, efficiency and effectiveness.

In discharging this overall responsibility, the Authority is responsible for putting in place proper arrangements for the governance of its affairs facilitating the effective exercise of its functions, and which includes arrangements for the management of risk.

The Authority has approved and adopted an updated code of corporate governance, which is consistent with the principles of the CIPFA/SOLACE Framework *Delivering Good Governance in Local Government*. Included within the Code are the following core principles:-

1. Behaving with integrity, demonstrating strong commitment to ethical values, and respecting the rule of law
2. Ensuring openness and comprehensive stakeholder engagement
3. Defining outcomes in terms of sustainable economic, social, and environmental benefits
4. Determining the interventions necessary to optimise the achievement of the intended outcomes
5. Developing the entity's capacity, including the capability of its leadership and the individuals within it
6. Managing risks and performance through robust internal control and strong public financial management
7. Implementing good practices in transparency, reporting, and audit to deliver effective accountability

(A copy of the code, setting out the core and supporting principles, what the Authority commits itself to do and how it will do this can be found on our website at <http://www.lancsfirerescue.org.uk/sites/lancs/Pages/ContentDocuments/Code-of-Corporate-Governance.pdf>)

This statement explains how the Authority has complied with the code and also meets the requirements of regulation 4(2) of the Accounts and Audit Regulations 2003 as amended by the Accounts and Audit (Amendment) (England) Regulations 2006 in relation to the publication of a statement on internal control.

The Purpose of the Governance Framework

The governance framework comprises the systems and processes, and culture and values, by which the Authority is directed and controlled and its activities through which it accounts to, engages with and leads the community. It enables the Authority to monitor the achievement of its strategic objectives and to consider whether those objectives have led to the delivery of appropriate, cost-effective services.

The system of internal control is a significant part of that framework and is designed to manage risk to a reasonable level. It cannot eliminate all risk of failure to achieve policies, aims and objectives and can therefore only provide reasonable and not absolute assurance of effectiveness. The system of internal control is based on an on-going process designed to identify and prioritise the risks to the achievement of the Authority's policies, aims and objectives, to evaluate the likelihood of those risks being realised and the impact should they be realised, and to manage them efficiently, effectively and economically.

The governance framework has been in place at the Authority for the year ended 31 March 2017 and up to the date of approval of the 2016/17 Statement of Accounts.

The Governance Framework

The Governance framework describes the key elements of the systems and processes that comprise the Authority's governance arrangements in accordance with the six principles of Corporate Governance included in our Code and include:-

Ultimately these culminate in the production, and publication, of an Annual Assurance Statement.

Review of effectiveness

The Authority has responsibility for conducting, at least annually, a review of the effectiveness of its governance framework including the system of internal control. The review of effectiveness is informed by the work of the executive managers within the Authority who have responsibility for the development and maintenance of the governance environment, the Internal Auditors annual report, and also by comments made by the external auditors and other review agencies and inspectorates.

A statement of assurance has been discussed and approved by the Executive Board as to the effectiveness of the governance arrangements for which it is responsible, including the system of internal control. The statement of assurance covers all the principles set out in the Authority's Code of Corporate Governance. The statement of assurance reveals no areas of weakness in the Authority's corporate governance arrangements; the arrangements are in all cases at least adequate and in the majority of areas good.

In maintaining and reviewing the effectiveness of the Authority's governance arrangements the following have been considered:-

- The Integrated Risk Management Plan has been updated and agreed, covering the five year period 2017-2022.
- A revised Annual Service Plan has been agreed for 2017/18, providing clarity, both internally and externally, on our priorities set out in the IRMP and describes what our ambitions are for each priority, as well as setting out the projects and actions that will be delivered, developed or reviewed during the coming year against each of our priorities.
- Business Continuity arrangements have been updated and tested.
- A new Code of Corporate Governance has been agreed, based CIPFA/SOLACE Framework Delivering Good Governance in Local Government.
- A revised code of conduct has been implemented.
- A framework has been developed to review potential partnership arrangements utilising the following criteria: Will it make Lancashire Safer?
 - Will undertaking the activity potentially damage our brand?
 - Does it fit with the public image of the FRS?
 - Will it detract from our ability to undertake other operational or preventative functions, if so to what extent?
 - Is there a significant negative financial impact?
 - Is the activity likely to fit comfortably with our stakeholders (Trade Unions, Firefighters, CFS staff, Partners, Home Office, etc.)?
- An Operational Assurance Team has been implemented, providing a programme of service wide station assurance visits to identify areas for improvement and track these through to completion, thus enhancing operational preparedness, operational response and operational learning.
- A revised performance appraisal system, incorporating values, has been implemented for all staff
- Internal Audit services were provided by Lancashire County Council, who comply with CIPFA's Code of Internal Audit Practice. The service is designed to give assurance that

the Authority maintains adequate systems of internal control and to make recommendations on ways to enhance these where felt necessary.

- As part of the 2016/17 audit plan the auditors undertook various reviews and gave the overall opinion that they can “provide substantial assurance over the framework of governance, risk management and control for 2016/17” and “that there is a generally sound system of internal control, adequately designed to meet the objectives of Lancashire Combined Fire Authority and controls were generally applied consistently.”
- Grant Thornton provide an external audit service to the Authority, and as such the effectiveness of the system of internal controls is also informed by their work. The latest Annual Audit letter did not identify any significant weaknesses in internal control arrangement and provided the following audit conclusions in relation to 2015/16:
 - Financial statements – “We gave an unqualified opinion on the Authority’s financial statements”
 - Value for money conclusion – “We were satisfied that the Authority put in place proper arrangements to ensure economy, efficiency and effectiveness in its use of resources during the year”
