Privacy Notice – National Fraud Initiative Privacy Notice

Lancashire Fire and Rescue Service is required by law to protect the public funds we administer. We may share information provided to us with other bodies responsible for auditing or administering public funds, in order to prevent and detect fraud.

The Cabinet Office currently requires us to participate in a data matching exercise to assist in the prevention and detection of fraud.

LFRS process your data to participate in the National Fraud Initiative data matching exercise which is co-ordinated by the Cabinet. Data matching involves comparing computer records held by one body against other computer records held by the same or another body to see how far they match. This is usually personal information. Computerised data matching allows potentially fraudulent claims and payments to be identified. Where a match is found it may indicate that there is an inconsistency which requires further investigation. No assumption can be made as to whether there is fraud, error or other explanation until an investigation is carried out.

The Service is required to provide payroll, pensions and supplier data the first week of October 2018, which will require us to process personal data
